Comments:

1. What did you find useful about the training?

- Bureau of Reclamation data analysis steps and helpful equations
- How to interpret lab data, very useful for those who didn't know
- The first day and third day (i.e., First Day: description of QA/QC; Third Day: examples).
- All of the items presented will be useful in our programs
- I didn't attend all of the training, but it looked and sounded pretty effective
- QA/QC validation from labs
- QA/QC validation
- Informational, action limits, reporting limits
- The discussion on water quality and water results, reporting limits, actions (awesome).
- Every topic we covered through the training

2. How beneficial is this training in your environmental program?

- Need to utilize often
- Very
- Very beneficial
- This will enhance development in most of our programs
- I don't do field work, but if I did I would find the training beneficial
- Very. There are things that we can change to improve our program
- Very beneficial
- Very beneficial
- Very beneficial
- Very beneficial

3. How useful were the examples?

- Good
- Very
- Great, made the information covered understood
- Examples were useful and related to what we are doing
- Very useful
- Very. The examples from other local tribes were helpful
- Very useful
- Very Useful
- Beneficial
- They were useful. A person can see for themselves when we get a report back from the lab what to look for.

4. What did you DISLIKE about the training?

- Too much individual talk time
- No recliners or ashtrays
- The 2nd day. Off schedule
- Nothing
- Sometimes the training would go off on tangents from a variety of topics
- Nothing
- There was no cold water
- Nothing
- Nothing
- Nothing

5. What would you recommend for future trainings?

- Have a facilitator to keep on track and on time. Also, more healthy food. Less donuts
- Rangeland Management and Assessment
- Nothing
- Wetlands
- I would recommend more organization and direction for training
- Nothing
- Keep BoR
- Field Training, hands on
- In field training
- Maybe send in a lab tech to explain how they process their sample sent to them

6. Do you have any suggestions or comments?

- Like getting together to discuss real tribal relevant issues
- Bob is cool
- 2 days instead of 3
- Keep up the training for Tribes
- No. Thank you. Great Job!
- I like the informal setting. It is easier to learn and ask questions
- Thanks! I learned a lot.

- None
- I have really appreciated all that John Fields and Bob Hall have taught me, in which I can take back to the tribe, too improve the health and well being of the Washoe people.
- No
